**Subject:** SMP Proposals  
**Attachments:** Skills Marketplace Pilot Program project proposals.docx

Hello Sandy,

We have received quite a few proposals for the SMP pilot and they are pretty diverse as well. I was on the call today and there was discussion on whether we should roll out with Sharepoint 2010 version or wait and roll out with the Sharepoint 2013 version that is set to come out. The group was a bit split because there was some agreement that we should wait until we received the proper tech tools to effectively roll out SMP instead of using a fill in like a Lotus Notes application and/or PAVE which is a Lotus Note app. It was suggested that we present our discussion on this to Senior Management and have them make a decision.

I am also forwarding you a brief synopsis of the projects we have received so far. Should we set up a meeting with the SLT board next week so they can review?

Thank you,
